

Ahmed Al Shamsi Senior Vice President Regional MEAE Borouge

Ahmed Al Shamsi is the Senior Vice President for Regional (MEAE) at Borouge since May 2017. Based in the UAE, he is also a Board Member of the Ruwais Fertilizer Industries (FERTIL).

As per his new role, Al Shamsi is responsible for leading the sales and marketing activities of Borouge as well as developing and implementing the long term strategies of the company within the region.

Al Shamsi brings with him a professional experience of more than 18 years in chemical engineering, project management and petrochemicals business. He joined Borouge in 2007 as Global Demand Manager at the Supply Chain Management department. Four years later, he became the Vice President of Global Planning in 2011. His outstanding contribution to Borouge's growth enabled him to take up the position of Senior Vice President for Global Supply Chain in 2013.

Under his leadership, Borouge's Global Supply Chain function has grown significantly in strength and capability until it became the largest function in Borouge Pte creating value for the company as well as for the customers through timely, quality logistical support whilst maintaining consistent outstanding financial performance. The experience he brings to the Borouge MEAE region would certainly contribute to further future success.

Al Shamsi first started his career in 1999 as Process Engineer at Abu Dhabi Gas Company (ADNOC-ATHEER). In 2001, he moved to the Industrial Development Fund where he took up the position of Project Manager till 2007.

Born in 1977, Al Shamsi holds a Bachelor's degree in Chemical Engineering from the University of Tulsa, USA, since 1999. He is also a holder of a Master's degree in Quality Management (MQM) from the University of Wollongong. Al Shamsi is a UAE national.

Borouge is a leading petrochemical company that provides innovative, value creating plastics solutions. A joint venture between the Abu Dhabi National Oil Company (ADNOC), one of the world's major oil and gas companies, and Austria based Borealis, a leading provider of chemical and innovative plastics solutions, Borouge is a groundbreaking joint venture at the forefront of the next generation of plastics innovation.

With its base in the United Arab Emirates and Marketing & Sales head office in Singapore, Borouge employs more than 3,000 people representing over 40 nationalities and serves customers in 50 countries across the Middle East, Asia and Africa.

Building on the unique Borstar® and Borlink™ technologies and over 50 years of experience in polyolefins, Borouge provides innovative, sustainable and value creating plastics solutions for infrastructure (pipe systems, and power and communication cables), automotive and advanced packaging applications that address global challenges such as climate change, food protection, access to fresh water, energy conservation, healthcare and waste management.

In 2010 Borouge tripled the annual production capacity of its plant in Abu Dhabi to 2 million tonnes, and with the further expansion that started in 2014 and increased the annual capacity to 4.5 million tonnes, Borouge and Borealis have a combined annual production capacity of approximately 8 million tonnes of polyethylene and polypropylene.

Borouge is expanding its commercial and logistics network in the Middle East and Asia and investing in its Innovation Centre in Abu Dhabi and Application Centre in Shanghai. Focused on our company mission, *Value Creation through Innovation*, we ensure that our customers throughout the value chain, around the world, can rely on differentiated products and reliability of supply.

Borouge is committed to the principles of sustainability and is a signatory of the chemical industry's Responsible Care® Global Charter. Together with Borealis, Borouge is proactively addressing the world's water and sanitation challenges through the Water for the World™ initiative.
