

Hussain Al Hammadi **Vice President Corporate HSE** **Borouge**

Hussain Al Hammadi is currently the Vice President of Corporate HSE at Borouge since July 2014. Before assuming this position, he was the Vice President of Site Supply Chain based in Ruwais since July 2011.

Having more than 13 years of experience in petrochemical industry within the ADNOC Group of Companies, Al Hammadi started his career with Borouge in 2003 when he was appointed as a Mechanical Engineer in Maintenance Department in Ruwais. In 2006, he moved to Borealis for an international project assignment of Borealis PP6 project in Burghausen, Germany, as Project / Mechanical Engineer till July 2007. In the same year, Al Hammadi was assigned as Polyolefin Plants Operation Manager at Ruwais site till October 2010 when he was assigned again as Utilities & Offsite Function Manager.

Al Hammadi holds a Bachelor of Science degree in Mechanical Engineering from Valparaiso University in the USA since 2002. He is a UAE national.

END

Borouge is a leading petrochemical company that provides innovative, value creating plastics solutions. A joint venture between the Abu Dhabi National Oil Company (ADNOC), one of the world's major oil and gas companies, and Austria based Borealis, a leading provider of chemical and innovative plastics solutions, Borouge is a groundbreaking joint venture at the forefront of the next generation of plastics innovation.

With its base in the United Arab Emirates and Marketing & Sales head office in Singapore, Borouge employs more than 3,000 people representing over 40 nationalities and serves customers in 50 countries across the Middle East, Asia and Africa.

1(2)

Building on the unique Borstar® and Borlink™ technologies and over 50 years of experience in polyolefins, Borouge provides innovative, sustainable and value creating plastics solutions for infrastructure (pipe systems, and power and communication cables), automotive and advanced packaging applications that address global challenges such as climate change, food protection, access to fresh water, energy conservation, healthcare and waste management.

In 2010 Borouge tripled the annual production capacity of its plant in Abu Dhabi to 2 million tonnes, and with the further expansion that started in 2014 and increased the annual capacity to 4.5 million tonnes, Borouge and Borealis have a combined annual production capacity of approximately 8 million tonnes of polyethylene and polypropylene.

Borouge is expanding its commercial and logistics network in the Middle East and Asia and investing in its Innovation Centre in Abu Dhabi and Application Centre in Shanghai. Focused on our company mission, *Value Creation through Innovation*, we ensure that our customers throughout the value chain, around the world, can rely on differentiated products and reliability of supply.

Borouge is committed to the principles of sustainability and is a signatory of the chemical industry's Responsible Care® Global Charter. Together with Borealis, Borouge is proactively addressing the world's water and sanitation challenges through the Water for the World™ initiative.
