Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Statements

To the Shareholders of Borouge PLC

Introduction

We have reviewed the accompanying 30 September 2026 condensed consolidated interim financial statements of Borouge PLC ("the Company") and its subsidiaries ("the Group"), consisting of:

- the condensed consolidated interim statement of financial position as at 30 September 2026;
- the condensed consolidated interim statements of profit or loss and other comprehensive income for the three-month and nine-month periods ended 30 September 2026;
- the condensed consolidated interim statements of changes in equity for the nine-month period ended 30 September 2026;
- the condensed consolidated interim statements of cash flows for the nine-month period ended 30 September 2026; and
- notes to the interim financial statements.

Management is responsible for the preparation and presentation of this condensed consolidated interim financial statements in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

All rights reserved. KPMG Lower Gulf Limited is registered and licensed under the rules and regulations of Abu Dhabi Global Markets.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 September 2026 condensed consolidated interim financial statements is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

Other Matter

The condensed consolidated interim financial statements of the Group for the three-month and nine-month periods ended 30 September 2025, were reviewed by another auditor who expressed an unmodified conclusion on those condensed consolidated interim financial statements on 28 October 2025. The condensed consolidated interim financial statements of the Group for the three-month period ended 31 March 2026 were reviewed by another auditor who expressed an unmodified conclusion on those condensed consolidated interim financial statements on 29 April 2026. Furthermore, the consolidated financial statements of the Group as at and for the year ended 31 December 2025 were audited by another auditor who expressed an unmodified opinion on those consolidated financial statements on 3 February 2026.

1 REPORTING ENTITY

Borouge PLC (the "Company") was incorporated on 28 April 2022 as a public company limited by shares, with registration number 000007602, pursuant to the Abu Dhabi Global Market Companies (Amendment No. 1) Regulations 2020. The Company has been established for the purpose of serving as a holding company for Abu Dhabi Polymers Co. Ltd (Borouge) – Sole Proprietorship L.L.C. and Borouge Pte. Ltd.

In the period, the Company's ultimate major shareholders - Abu Dhabi National Oil Company P.J.S.C. ("ADNOC") and OMV Aktiengesellschaft ("OMV") – announced they had formed a new jointly controlled entity, Borouge Group International AG ("BGI"). This transaction involved combining Borouge PLC with Borealis GMBH ("Borealis"), with the newly formed entity acquiring Nova Chemicals Corporation. BGI will serve as ADNOC and OMV's strategic platform for growth and acquisitions in the polyolefins sector. Pursuant to a resolution of the Shareholders dated 10 May 2022, the shareholders approved listing the Company's shares on Abu Dhabi Securities Exchange whereby 10% of its shares were offered in an Initial Public Offering ("IPO"). As at the reporting date, BGI (the "Ultimate Parent") held 90% of the issued share capital of the Company while the remaining 10% are floated on the Abu Dhabi Securities Exchange ("ADX"). BGI is considered to be the ultimate parent.

On 25 March 2026, ADNOC (including on behalf of XRG Austria GMBH ("XRG Austria") transferred its entire shareholding in the Company to BGI in exchange for new shares in BGI; Borealis Middle East Holding GMBH transferred its entire shareholding in the Company and Borouge PTE Ltd to BGI and OMV made cash contribution in exchange for new shares in BGI.

In addition, BGI issued new shares to XRG Austria, XRG P.J.S.C. and OMV, resulting in the effective shareholding of 50% of BGI being held by XRG and 50% of the shareholding in BGI being held by OMV. BGI is jointly controlled by XRG and OMV from 25 March 2026.

The BGI transaction represented a shareholder restructuring transaction. Management assessed the transaction and concluded that there was no change in control of the Group requiring business combination accounting under IFRS 3 and therefore no remeasurement of assets and liabilities arose.

These condensed consolidated interim financial statements (the 'interim financial statements') as at and for nine months 30 September 2026 comprise the Company and its subsidiaries (together referred to as the "Group"). The condensed consolidated interim financial statements were approved by the Board of Directors and authorised for issuance on 28 October 2026.

2 BASIS OF PREPARATION

2.1 STATEMENT OF COMPLIANCE

The condensed consolidated interim financial statements as at and for the nine-month period ended 30 September 2026 have been prepared in accordance with International Accounting Standard IAS 34, Interim Financial Reporting ("IAS 34"). The Group has prepared the financial statements on the basis that it will continue to operate as a going concern.

These condensed consolidated interim financial statements do not include all the information and disclosures required in the complete set of annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") Accounting Standards as Issued by the International Accounting Standards Board ("IASB") ("IFRS Accounting Standards"), and should be read in conjunction with the Group's annual consolidated financial statements as at and for the year ended 31 December 2025. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated financial statements. In addition, results for the nine-month period ended 30 September 2026 are not necessarily indicative of the results for the year ending 31 December 2026.

2 BASIS OF PREPARATION continued

2.2 FUNCTIONAL AND PRESENTATION CURRENCY

These condensed consolidated interim financial statements are presented in US Dollar ("USD"), which is the Company's functional and the Group's presentation currency, as a significant proportion of the Group's assets, liabilities, income and expenses are denominated in USD. Subsidiaries within the Group also have USD as their functional currency. All amounts have been rounded to the nearest thousand, unless otherwise indicated.

2.3 GOING CONCERN

The directors have, at the time of approving the condensed consolidated interim financial statements, reasonable expectation that the Group will continue in operational existence for the foreseeable future as its subsidiaries have a history of profitable operations and the Group has ready access to financial resources. Thus, they continue to adopt the going concern basis of accounting in preparing the condensed consolidated interim financial statements.

2.4 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Group are consistent with those disclosed in the audited annual consolidated financial statements as at and for the year ended December 31, 2025.

2.5 MIDDLE EAST GEOPOLITICAL TENSION

During the period, geopolitical tensions in parts of the Middle East have escalated following the conflict between the United States and Iran. The Group is assessing the potential implications of these developments on its operations, financial position and performance. In this context, management has identified several risk factors, including the Group's reliance on ocean freight routes for its Middle Eastern operations—particularly through key maritime corridors such as the Strait of Hormuz - as well as potential uncertainties surrounding the continuity of feedstock availability.

These developments may continue to affect the Group's operations and financial performance through, among other factors, potential interruptions in export logistics, increases in insurance, freight and security costs, and volatility in international product and feedstock prices. Given the continuing uncertainty and the evolving nature of the situation, it is not currently practicable to reliably estimate the full financial effect of these events on the current or future reporting periods.

The Group delivered a resilient third quarter performance in 2026, demonstrating the strength of its operations, supply chain agility and financial discipline despite adverse regional developments. Following the incident on 5 April at its Ruwais complex, the Company restored full asset availability ahead of schedule with the successful repair of affected assets completed by the end of June 2026. The Company successfully shipped all volumes produced during the quarter as well as additional volumes from inventory.

The Group successfully developed alternative logistics routes via road, rail and sea which enabled it to ship beyond volumes produced during the quarter, supporting continued customer supply despite regional disruption. Borouge's utilisation rates in the quarter averaged at 63%. With asset availability now fully restored, Borouge is well positioned to return to high utilisation rates during Q4 2026 depending on logistics and feedstock availability.

During the period, the Group recognised insurance income of USD 13.2 million relating to damage to property, plant and equipment and USD 11.5 million relating to inventory losses arising from the April 2026 incident, which are presented under Amounts due from related party and Other receivables, respectively, as at 30 September 2026. Management recognised the recoveries based on its assessment that receipt was virtually certain, having considered the relevant insurance policies and correspondence with the insurers. The insurance income is presented within Other income. Management has also considered these developments in assessing whether any indicators of impairment existed in respect of the Group's non-financial assets as at the reporting date, taking into account the Group's financial performance for the quarter and management's current assessment of the likely operational and pricing impacts. Based on this assessment, management identified impairment indicators relating to the specific plant and machinery damaged in the April 2026 incident and recognised an impairment loss of USD 6.4 million. Based on management's broader assessment of the Group's remaining non-financial assets and cash-generating units, management concluded that no additional impairment was required at 30 September 2026.

2 BASIS OF PREPARATION continued

2.6 NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS ADOPTED BY THE GROUP

The accounting policies adopted in the preparation of the condensed consolidated interim financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements as at and for the year ended 31 December 2025, except for the adoption of new standards effective as at 1 January 2026.

A number of new accounting standards and amendments to accounting standards are effective for annual periods beginning after 1 January 2026 and earlier application is permitted.

The Group has not early adopted any new or amended accounting standards in the preparation of this condensed consolidated interim financial information.

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 1 January 2027. The new standard introduces the following key new requirements.

- Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
- Management-defined performance measures (MPMs) are disclosed in a single note in the financial statements.
- Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method. The Group is still in the process of assessing the impact of the new standard, particularly with respect to the structure of the Group's consolidated statement of profit or loss, the statement of cash flows and the additional disclosures required for MPMs. The Group is also assessing the impact on how information is grouped in the financial statements, including for items currently labelled as 'other'.

Other accounting standards

The following new and amended accounting standards did not (where already effective) and are not expected to have (where not yet effective) a significant impact on the Group's consolidated financial statements.

New and revised IFRSs and amendments	Effective for annual periods beginning on or after
Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	1 January 2026
2026 Annual Improvements to IFRS Accounting Standards – Volume 11	1 January 2026
IFRS 19 Subsidiaries without Public Accountability: Disclosures	1 January 2027
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 and IAS 28	Available for optional adoption/ effective deferred indefinitely

There are no other applicable new standards and amendments to published standards or interpretations that have been issued that would be expected to have a material impact on the condensed consolidated interim financial information of the Group.

2 BASIS OF PREPARATION continued

2.7 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these condensed consolidated interim financial statements in conformity with the IFRS Accounting Standards requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and income and expenses. It also requires management to exercise judgment in the application of its accounting policies. The estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. These estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

Except for the matters described below and the effects of the geopolitical developments during the period described in note 2.5, the significant judgments made by management in applying its accounting policies and the key sources of estimation uncertainty were the same as those applied to the annual consolidated financial statements of the Group as at and for the year ended December 31, 2025.

Recognition / derecognition of financial assets
Subsequent to the year end, management has reassessed the judgment relating to the derecognition of trade receivables sold under the Limited Recourse Receivables Discounting Agreement entered into with an external commercial bank.

Management assessed the arrangement under IFRS 9 derecognition requirements and concluded that substantially all risks and rewards of ownership had not been transferred. Accordingly, the receivables remain recognised and funding received is recognised as a financial liability.

There is no impact on the condensed consolidated interim statement of profit or loss resulting from the change in judgement.

2.8 SEGMENTAL ANALYSIS

For the period ended 30 September 2026 the Chief Operating Decision Maker ("CODM") has determined that the Group has only one operating segment, which is consistent with the internal reporting and performance measurement.

The Group does not have any operating segments that are aggregated. The CODM has considered the following criteria in determining the operating segments of the Group:

- the nature of products and services;
- the nature of the production processes;
- the type or class of customer for their products and services; and
- the methods used to distribute their products or provide their services;

Based on the criteria and evaluation above, the CODM has determined that the Group has only one operating segment, which is consistent with the internal reporting and performance measurement.

Further details of the analysis can be found in the Annual Financial Statements of the Group, for the year ended 31 December 2025, whereby the same conclusion was reached.

3 GROUP INFORMATION

Details of the Company's subsidiaries as at 30 September 2026 and 31 December 2025 are as follows:

Name of subsidiary	*Ownership interest*	*Parent Company*	*Country of incorporation*	*Principal activities*
Abu Dhabi Polymers Co. Ltd (Borouge) - Sole Proprietorship L.L.C. ("ADP")	100%	PLC	U.A.E	Production of ethylene, propylene, polyethylene and polypropylene
Borouge Pte Ltd ("PTE")	84.746%	PLC	Singapore	Trading of polyolefins
Borouge (India) Pvt Ltd	100%	PTE	India	Marketing and support services
Borouge Compounding Holding PTE Ltd ("PTECOM")	100%	PTE	Singapore	Investment Holding
Borouge Compounding (Shanghai) Co. Ltd	100%	PTECOM	People's Republic of China	Trading polyolefins products
Borouge Sales and Marketing (Shanghai) Co. Ltd	100%	PTE	People's Republic of China	Marketing and support services
Borouge Egypt LLC	100%	PTE	Arab Republic Egypt	Marketing and support services
Borouge Kenya Ltd	100%	PTE	Kenya	Marketing and support services
Borouge Korea Co. Ltd	100%	PTE	South Korea	Trading of polyolefins products and sales and marketing support

The Company together with its subsidiaries is referred to as the "Group".

On 16 April 2026, the Group and entered into a Joint Venture Agreement ('JV Agreement') with Wanrong New Material (Fujian) Co., Ltd., a subsidiary of Wanhua Chemical Group, for the proposed development of an integrated petrochemical complex in Fujian, China. Subject to satisfaction or waiver of specified conditions precedent, including applicable merger-control approvals, the parties intend to establish a company in which each party will hold a 50% interest.

The JV Agreement establishes the proposed governance, development and financing arrangements for the project. As at the reporting date, the conditions precedent had not been satisfied, the proposed joint venture entity had not been established and the Group had not made a final investment decision in respect of the project. Management therefore concluded that the Group did not have an interest in an established joint venture or joint control of an investee at that date, and no investment in a joint venture was recognised.

Under the JV Agreement, the Group is expected to subscribe for $650 million of the proposed entity's registered capital. However, the JV Agreement provides that there is no commitment to fund the entity before the Group makes a positive final investment decision, except for the Group's share of approved pre-final-investment-decision development costs. Accordingly, no liability has been recognised for the $650 million subscribed capital amount as at the reporting date.

The JV Agreement provides for the parties to share approved pre-final-investment-decision development costs equally. As at the reporting date, the estimated spending is USD 976 thousand as at 30 September 2026 by the Group and Wanhua on this JV project for pre-FEED, which 50% will be borne by the Group.

5 RIGHT-OF-USE ASSETS AND LEASE LIABILITIES

The right and license to use the land in Ruwais, on which the buildings, plant and machinery are constructed, was granted by the Supreme Petroleum Council, free of all fees, in accordance with a letter dated 28 October 1998. The land in Ruwais continues to be free of all fees, except for the Borouge 4-Plant Site in accordance with an agreement signed between the Group and ADNOC on 16 November 2021. On the same day, the Group signed an agreement with ADNOC for the lease of the Sas Al Nakhl Area where rent will be payable on land for the Innovation Centre Site.

	30 September 2026 USD'000 (Unaudited)	*31 December 2025 USD'000 (audited)*
Trade receivables	**869,523**	811,680
Provision for expected credit losses	**(4,569)**	(3,443)
	864,954	808,237

Movement in the allowance for expected credit losses against trade receivables during the period was as follows:

	30 September 2026 USD'000 (Unaudited)	*31 December 2025 USD'000 (audited)*
Balance at 1 January	**3,443**	1,146
Transfer from prepayments and other receivables	**-**	2,010
Charge for the period/year	**1,126**	811
Write off	**-**	(524)
At the end of the period/year	**4,569**	3,443

8 PREPAYMENTS AND OTHER RECEIVABLES

	30 September 2026 USD'000 (Unaudited)	*31 December 2025 USD'000 (audited)*
Advances to vendors	**52,195**	23,930
Taxes recoverable	**2,679**	3,740
Deposits	**12,672**	13,234
Prepayments	**8,393**	5,244
Other receivables	**14,259**	1,942
	90,198	48,090

8 PREPAYMENTS AND OTHER RECEIVABLES continued

An amount included within deposits of USD 12,672 thousand (31 December 2025: USD 11,705 thousand) represents cash held by the Market Maker and Share Buyback program. See note 20 for further details.

9 CASH AND CASH EQUIVALENTS

For the purpose of the condensed consolidated interim statement of cash flows, cash and cash equivalents are comprised of the following:

	30 September 2026 USD'000 (Unaudited)	*31 December 2025 USD'000 (audited)*
Cash at bank – current accounts	**183,763**	114,643
Short-term deposits	**123,811**	312,248
Cash on hand	**11**	10
Cash and cash equivalents	**307,585**	426,901

Short-term deposits are mainly denominated in US Dollar ("USD") and earn interest based on prevailing average market interest rate of 4.00% per annum (2025: 4.67%) with an original maturity of less than three months.

10 LOANS AND BORROWINGS

	30 September 2026 USD'000 (Unaudited)	*31 December 2025 USD'000 (audited)*
Commercial term facility (i)	**-**	2,600,000
Islamic facility (i)	**-**	350,000
Receivables discounting (ii)	**333,608**	10,680
	333,608	2,960,680
Unamortised transaction costs	**-**	(2,950)
	333,608	2,957,730

(i) During the period and as a result of BGI merger transaction, the Company undertook a refinancing program, whereby the external loan facilities held with a consortium of banks, were fully repaid and replaced with a facility provided by its parent, BGI.

The existing loan comprising a commercial term facility of USD 3,650 million and an Islamic facility of USD 350 million, had amounts of USD 2,450 million and USD 350 million outstanding, respectively, before settlement. On 9 April 2026, the facilities were settled in full via voluntary settlement notice, which triggered cancellation of agreements upon receipt of payment by the banks.

The commercial term facility carried an interest rate of SOFR + 0.90% margin per annum and the Islamic facility carried a profit margin amount. During the nine-month period ended 30 September 2026, the Group repaid external bank facilities totalling USD 2.950 billion, comprising a USD 150 million repayment before the refinancing and the subsequent settlement of outstanding commercial and Islamic facilities totalling USD 2.8 billion (2025: USD nil). There were no bank covenants or collateral maintained for the loans.

As part of the refinancing, the Group's revolving loan facility with First Abu Dhabi Bank amounting to USD 500 million, valid for up to 5 years from December 2024 was cancelled. The facility had an interest rate at SOFR plus margin per annum of 0.8%. The finance cost charged during the period was USD 1.5 million (30 September 2025: USD 656 thousand).

10 LOANS AND BORROWINGS (continued)

Further details of the new financing facilities can be found in note 11(iv), detailing the new loan and revolving credit facilities obtained.

(ii) Limited recourse receivables discounting agreement

During the year ended 31 December 2025, a subsidiary of the Company entered into a Limited Recourse Receivables Discounting Agreement ("Agreement") with an external Commercial Bank ("Purchaser"). The agreed structure provides for discounting of trade receivables of the subsidiary of the Company and was successfully initiated in December 2025. As part of this Agreement, there is a facility to sell up to USD 400 million of trade receivables. The finance cost charged during the period was USD 10.8 million (30 September 2025: USD Nil).

11 RELATED PARTIES – TRANSACTIONS AND BALANCES

Related parties comprise the Government of Abu Dhabi and related departments and institutions associated companies, joint ventures, shareholders, directors and key management personnel of the Group, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Group's management.

Amounts due to / from related parties are disclosed in condensed consolidated interim statement of financial position as follows:

	30 September 2026 USD'000 (Unaudited)	*31 December 2025 USD'000 (audited)*

Due to the group restructuring (see note 1), ADNOC and Borealis are no longer the immediate parent of the Company and hence have been reclassified as "Other related parties" in the period, rather than "Shareholders". Transactions have been classified based on the related-party relationship applicable at the transaction date. Following the restructuring on 25 March 2026, BGI is presented as the Shareholder, while transactions with ADNOC and Borealis are presented within Other related parties.

iv. Related party loans and borrowings

(a) This represents facilities held with Borouge Group International AG, the majority shareholder of Borouge PLC. Term Facility 1 is a USD 1,500 million facility, which is due payable 3 years from inception of agreement, for which the reference agreement was signed on 31 March 2026. This term facility carries an interest rate of SOFR + 0.725% margin per annum. The Company pays an annualised participation fee on this facility of 0.08% of the loan value per annum. Interest charged since inception of this facility equates to USD 32,254 thousand (30 September 2025: USD nil). Total participation fees recognised during the period amounted to USD 606 thousand (30 September 2025: USD nil).

(b) Term facility 2 is a USD 1,300 million facility, which is due payable 5 years from inception of the agreement, for which the referenced agreement was signed on 31 March 2026. This term facility carries and interest rate of SOFR + 0.875% margin per annum. The Company pays an annualised participation fee on this facility of 0.078% of the loan value per annum. Interest charged since inception of this facility equates to USD 28,902 thousand (30 September 2025: USD nil). Total participation fees recognised during the period amounted to USD 513 thousand (30 September 2025: USD nil)

There are no covenants or collateral maintained for the loans.

(c) As at 30 September 2026, the Group has a revolving loan facility with Borouge Group International AG amounting to USD 500 million, valid for up to 5 years from 31 March 2026. At 30 September 2026, the facility was drawn by USD 300 million (31 December 2025: USD nil). The facility bears an interest rate at SOFR plus margin per annum of 0.55%. Total participation fees recognised during the period amounted to USD 197 thousand (30 September 2025 : USD 302 thousand). Interest charged since inception of this facility equates to USD 181 thousand (30 September 2025: USD 331 thousand). There are no covenants or collateral maintained for this facility.

During the period and as a result of Borouge Group International merger transaction, the group undertook a refinancing program, whereby the external loan facilities held with a consortium of banks, were fully repaid and replaced with a facility provided by its parent, Borouge Group International. Given the related party nature of the facilities acquired in the period, the amounts disclosed in the comparative period are nil. Further details of the settled financing facilities can be found in note 10, detailing the existing facilities held by the Group.

12 REVENUE

The Group derives its revenue from contracts with customers for the transfer of goods and services at a point in time in the following major lines of business.

United Arab Emirates
Income tax expense is recognised at an amount determined by multiplying the profit before tax for the interim reporting period by management's best estimate of the weighted average annual income tax rate expected for the full financial year, adjusted for the tax effect of certain items recognised in full in the interim period. As such, the effective tax rate in the interim financial statements may differ from management's estimate of the effective tax rate for the annual financial statements. Effective tax rate for the period 30 September 2026 is 25.21% (30 September 2025: 29.09%).

The Company is subject to Abu Dhabi Income Tax on its taxable income attributable to its operations in respect of Borouge 1, Borouge 2 and Borouge 3.

Foreign jurisdictions
The Group's subsidiaries in foreign jurisdictions are subject to taxation. Income tax for the current period is provided on the basis of estimated taxable income computed by the Group using tax rates, enacted, or substantially enacted at the reporting date, applicable in the respective countries in which the subsidiaries operate and any adjustment to tax in respect of previous years.

16 BASIC AND DILUTED EARNINGS PER SHARE

Earnings per share amounts are calculated by dividing the profit attributable to shareholders of the Company by the weighted average number of share outstanding during the period.

	For the three-month period ended 30 September 2026 (Unaudited)	*For the three- month period ended 30 September 2025 (Unaudited)*	***For the Nine-month period ended 30 September 2026 (Unaudited)***	*For the Nine-month period ended 30 September 2025 (Unaudited)*
Profit attributable to owners of the Company (USD '000)	**106,554**	292,056	**450,767**	762,544
Weighted average number of shares in issue	**29,720,111,938**	29,960,391,441	**29,720,111,938**	29,960,391,441
Earnings per share (USD)	**0.004**	0.01	**0.02**	0.03

The weighted average number of ordinary shares takes into account the weighted average effect of changes in treasury shares (note 20) during the year.

17 CONTINGENCIES AND CAPITAL COMMITMENTS

As at 30 September 2026, the Group had contingent liabilities amounting to USD 399 thousand (31 December 2025: USD 322 thousand) in respect of bank and other guarantees and other matters arising in the ordinary course of business from which it is anticipated that no material liabilities will arise.

The Group is involved in various legal proceedings and claims arising in the ordinary course of business. While the outcome of these matters cannot be predicted with certainty, management does not believe that these matters will have a material adverse effect on the Group's consolidated financial statements if concluded unfavorably.

At 30 September 2026, the Group has authorised and committed estimated future capital expenditure amounting to USD 167,063 thousand (31 December 2025: USD 324,736 thousand).

18 SEASONALITY OF RESULTS

There is no impact of seasonality on the Group's operating results.

19 FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

Management considers that the fair values of the financial instruments of the Group are not materially different from their carrying values at the reporting date.

Fair value hierarchy
As at 30 September 2026 and 31 December 2025, the fair value measurement hierarchy of the Group's assets and liabilities is as follows:

	Level 1 *USD'000*	*Level 2* *USD'000*	*Level 3* *USD'000*	*Total* *USD'000*
Items measured at fair value				
At 30 September 2026				
Derivatives financial instruments not designated as hedging instruments	-	650	-	650
At 31 December 2025				
Interest rate swap – hedged	-	6,002	-	6,002

Cash flow hedge
At 30 September 2026, the Group had interest rate swap agreements in place with a notional amount of USD 500,000 thousand (31 December 2025: USD 500,000 thousand) whereby the Group pays a fixed rate of interest of 4.65% (31 December 2025: 4.65%) and receives interest at a variable rate of the notional amount. The swap is being used to hedge the exposure to variability of cash flows associated with the variable interest-bearing loan held by the Group.

During the period ended 30 September 2026, the Group earned a fair value gain on derivatives used in effective cashflow hedge relationship of USD 2,499 thousand (period ended 30 September 2025: loss of USD 1,485 thousand).

During the period, the Group refinanced its external borrowings, resulting in the extinguishment of the original debt that formed the hedged item in the designated cash flow hedge relationship. As the original hedged cash flows were no longer expected to occur and the replacement borrowing referenced a different benchmark tenor, the hedge relationship was de-designated. Consequently, the balance previously recognised in the cash flow hedge reserve was reclassified from equity to profit or loss, and all subsequent fair value movements on the hedging instrument have been recognised directly in profit or loss. The Company recognised a gain on discontinuation of cash flow hedge for the period of USD 3,503 thousand (period ended 30 September 2025: USD nil).

Derivative financial instruments
The interest-rate swap was previously designated as a hedging instrument in a cash-flow hedge relationship. Following extinguishment of the original hedged borrowing during 2026, the hedge relationship was discontinued because the originally forecast hedged cash flows were no longer expected to occur. The cumulative amount remaining in the cash-flow hedge reserve was therefore reclassified to profit or loss. Subsequent changes in the fair value of the derivative have been recognised directly in profit or loss. At 30 September 2026, the derivative was not designated in a hedge-accounting relationship. The Derivative financial instruments as of 30 September 2026 amounting to USD 650 thousand (30 September 2025: USD nil).

20 TREASURY SHARES AND SHARE PREMIUM

During the previous period, the Company appointed Al Ramz Capital a licensed Market Maker on the Abu Dhabi Securities Exchange (ADX) that offers liquidity provision services, to place buy and sell orders of the Company's shares with the objective of reducing bid/ask spreads as well as reducing price and volume volatility.

The Market Maker trades and operates within the predetermined parameters approved by the Company. The Company has provided the funding to the Market Maker to trade the Company's shares and it carries all risks and rewards associated with the arrangement. Given the nature and substance of the arrangement, the shares have been classified as "Treasury Shares" in Equity.

At 30 September 2026, the Market Maker held 15,787 thousand shares (31 December 2025: 14,664 thousand) on behalf of the Company, which are classified under equity as treasury shares amounting to USD 10,185 thousand (31 December 2025: USD 10,405 thousand).

In addition to the Market Maker services, on 7 April 2025, in the Annual General Assembly meeting the Shareholders of the Company approved the purchase of up to a maximum of 2.5% of the Company's issued shares. The share buyback program commenced after shareholder approval was received and at 30 September 2026, the Company held 312,847 thousand shares (31 December 2025: 211,847 thousand shares), which are classified under equity as treasury shares at acquisition cost amounting to USD 217,686 thousand (31 December 2025: USD 147,818 thousand).

A cumulative net loss of USD 379 thousand has been recognised at 30 September 2026 (30 September 2025: cumulative net gain of USD 826 thousand) in 'Other reserve' under equity.

21 COMPARATIVE INFORMATION

Certain comparative figures have been reclassified, wherever necessary, to conform to the presentation adopted in the current period condensed consolidated interim financial statements. Such reclassifications have no impact on the previously reported total profit, total equity (or cash flows) of the Group.
